REPAIR SYSTEM	PARTS	APPLIED	PRODUCT DESCRIPTION	DURABILITY	SUBSTRATES
NuCote EPOXY PASTE	2	 SQUEEGEE	Filling Holes & Cracks. Repair of substrate imperfections. Anchor bolt installation. Heavy-Duty Adhesive. Easy to Use & Fast Setting.	 > 70 MPa	Concrete Steel
NuCote SELF-COMPACTING CONCRETE	1 ^{H₂O}	 FLOW	Highly Consistent & Free Flowing. Rapid Setting. Non-Shrink Properties. Large Volume Structural Repairs. Bond to Concrete Without Primer. Ideal for Load Bearing Areas. Extend with graded aggregate.	 > 50-90 MPa DEPENDENT ON WATER RATIOS	Concrete
NuCote SELF-LEVELLING UNDERLAYMENT	1	 SELF-LEVEL	High Performance & Self-Smoothing. Hard Wearing & Abrasion Resistance. Cementitious Underlayment. Good Adhesion to Concrete.	 HIGH TRAFFIC	Concrete
NuCote TROWELABLE EPOXY GROUT	2	 TROWEL BRUSH	Epoxy-Based Product. Vertical And Horizontal Surfaces. High Impact & Chemical Resistance. Fast High-Strength Repairs. Thermal Shock Resistance. Meets LEED VOC Limits.	 > 70 MPa	Various
NuCote FLOWABLE EPOXY GROUT	2	 TROWEL BRUSH	Epoxy-Based Product. Horizontal Surfaces. High Impact & Chemical Resistance. Fast High-Strength Repairs. Thermal Shock Resistance. Meets LEED VOC Limits.	 > 70 MPa	Various
NuCote STRUCTURAL REPAIR MORTAR	1 ^{H₂O}	 STEEL FLOAT	Cementitious Repair Mortar. Trowelable & Non-Shrink. Simple to Mix & Apply. Resistance to Chemical Attack. Horizontal & Vertical Overhead Repairs. Set Faster Than Traditional Mortars.	 > 70 MPa	Concrete
