

**NuCote**<sup>TM</sup>  
FLOORING PERFECTION

This durable flooring range delivers impressive performance benefits for hard-wearing surfaces. The ideal application for floors that are subjected to UV exposure and require an economical yet flexible system.

**PU COATING  
SYSTEMS**

# PU COATING SYSTEMS

PU Coatings help protect substrates from a variety of environmental impacts causing defects. Our hard-wearing PU Coating Range has been formulated for old and new concrete making it the ideal coating for protecting floors against abrasion, corrosion and other deteriorating processes.

Hygienic Environments

Impact Resistant

Easy to Clean and Maintain

Aesthetically Pleasing

## NuCote™ UVC

NuCote™ UVC is a twin pack, UV-stable polyurethane coating system versatile and easy-to-use. The coating is flexible, with good resistance to various chemicals and has excellent bond-strength onto concrete and many other surfaces. NuCote™ UVC is used as a pigmented coating or as a clear coating to seal various cementitious materials and offers a high gloss or matt finish.

Advantages	Finish	Application	Components	Recommended Use	
<ul style="list-style-type: none"> <li>• High solids content</li> <li>• Durable and flexible</li> <li>• Excellent bonding properties</li> <li>• Abrasion and impact resistant</li> <li>• Easy application</li> </ul>				<ul style="list-style-type: none"> <li>• Interior and external use</li> <li>• Can be applied onto horizontal and vertical surfaces</li> <li>• High traffic areas</li> <li>• Chemical resistant</li> </ul>	
	Gloss or Matt	Roller Applied			Part A - Polyol
	Clear or Colour Seal	Seamless			Part B - ISO

- Estimated coverage: 8 - 10m<sup>2</sup> p/l (at 80µm WFT)
- Two to three coats are required
- Consult NuCote™ Sales
